

# PRECISION NEOTEQ CASTER

## Quiet. Smooth. Maintenance Free.

Engineered for performance, the NeoTeq® series caster features a non-marking neoprene wheel. A precision bearing raceway delivers added strength and stability, while the precision ball bearings wheel ensures effortless turning and maneuverability. Finished in a bright, chemical-resistant chrome, each caster offers a clean, professional appearance. Standard chrome thread guards and a coated metal dust shield reduce debris build-up, helping maintain long-term, reliable operation.

**WHEEL DIAMETER:** 2"  
**TREAD WIDTH:** 1"  
**TREAD PROFILE:** Round  
**CAPACITY:** 125lbs

Part Number	Wheel Size	Description	Capacity
NP278PB	2"x 1"	Grip Ring Stem Swivel Caster	125lbs

## Applications

- Laboratory and Medical Equipment
- Ergonomic Chairs
- IV Stands
- Furniture
- Mobile Computer Equipment
